
HOSTEL GUIDE

HOW DOES HOSTEL ROOM ALLOTMENT WORK?

- Hostel allotment is done through the online HMS portal ,i.e. <https://hms.manipal.edu>, usually starting around May.
- For first-years, it is strictly on a “first-come, first-served basis” depending on availability.
- For subsequent years, your CGPA also comes into the picture.
- You log in, pick your room category (AC/Non-AC, Double/Triple/Quadruple), pay the fees, and download your allotment letter.

Laundry services and tips:

How it works: You usually drop off your clothes at the designated campus laundry vendor (fees are typically included in your annual hostel fee).

Pro-tip: Bring a good permanent marker and discreetly mark the tags of your clothes to prevent mix-ups. Always separate your whites!

Best day to wash: Mid-week mornings (Tuesday/Wednesday) when everyone else is rushing to morning lectures. Avoid weekends; the lines and turnaround times are awful.

What should every fresher pack and usually forgets?

Bring: A sturdy umbrella (Bengaluru rains are random and heavy!), extension cords (plugs are never where you want them), a padlock with keys for your cupboard, and a medical kit (crocin, band-aids, electral).

Provided: Bed/mattress, study table, chair, and usually a basic bucket/mug (doubtful this year).

What to buy after reaching campus: Don't lug heavy toiletries, buckets, hangers, or stationary from home. There is a well-stocked campus store also **BLINKIT** where you can buy all of this on Day 1.

Any hostel tips you wish someone had told you?

Don't use adhesive tape on the walls; it peels the paint, and you'll be charged for damages. Use blu-tack or magnetic strips.

Buggies exist on campus, but they rarely stop for you. Be ready to walk—HB5 (Hostel Block 5) is the closest to the academic blocks!

What hostel rules should everyone know?

In-times: You must be inside the campus gate by 9:30 PM and inside your respective hostel block by 10:00 PM.

Deliveries: Food delivery is not allowed inside the hostel gates after 7:00 PM.

Wardens: Some wardens/security check Amazon/Flipkart parcels at the gate to ensure no prohibited items (like alcohol or heavy electrical appliances) are being smuggled in.

WiFi & Devices:

The campus is fully covered by a not so high-speed Wi-Fi (15-30mbps) . While you can connect your phone, laptop, and tablet using your student credentials, **bringing a personal Wi-Fi router is frowned upon and can get confiscated.** The Wi-Fi is generally kind of reliable in both hostels and academic blocks.

Roommates & Swapping:

You can't easily change your roommate once allotted. Swapping requires a lengthy administrative process, mutual consent from all parties, and a valid reason. It rarely happens in the first semester unless there's an extreme conflict. Give your roommate a chance!

Payment methods & Online deliveries:

UPI is the best. Google Pay, PhonePe, and Paytm work everywhere from the night canteens to the stationery shop. Keep a little cash for emergencies, but you'll rarely need it.

E-commerce and food deliveries arrive at the main hostel gates (GATE-3). You have to walk down to collect them.
