

FRESHERS FAQ

What information do you think every fresher should know in their first week?

Explore the campus, know where your classrooms, library, and mess are. Save important contacts, attend orientation sessions, and don't hesitate to ask seniors for help!

What are the shops located on the campus?

You'll find a convenience store for daily essentials, stationery, basic groceries, toiletries, and snacks. Cafés and food outlets are there too—so you won't have to run off campus for everything!

What would you rate the campus hair salons?

Convenient and decent for quick trims and basic services. For a complete makeover, most people prefer heading outside campus.

What do most freshers regret not doing in their first semester?

Not making enough friends, not joining clubs, and staying in their rooms too much. The first month is the best time to step out and meet new people!

What habits helped you succeed academically and socially?

Being consistent > being perfect. Attend classes, stay on top of small assignments, and revise regularly. Socially, talk to people, join clubs, and never be afraid to ask for help whenever you're stuck.

What resources or opportunities are underutilized by students?

The library (seriously!), research projects, faculty office hours, workshops, hackathons, internships and networking with seniors. Most people discover these opportunities way too late.

What's one piece of advice you'd give your first-year self?

Don't stress about having the "perfect" college life. Say yes to new things, take risks, make mistakes, learn from them and enjoy the ride. Four years go by faster than you think!

Apart from these, anything in general you would like to share with us?

College is what you make of it. Balance fun with responsibility, be kind, stay curious, and don't forget to have a little fun along the way. You're going to have an amazing time here.
